Website section ‘Summary’

Full name of the Article 8 (sub-) fund:	Summary
Global X Clean Water UCITS ETF	<p>The Fund promotes investment in companies that have business operations in the provision of clean water (“Clean Water Companies”), by replicating the Solactive Global Clean Water Industry v2 Index (the “Index”).</p> <p>The Fund will seek to replicate the performance of the Index subject to the deduction of fees and expenses by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.</p> <p>Clean Water Companies, as defined by Solactive AG, the provider of the Index (the “Index Provider”), are those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: (1) Industrial water treatment, recycling (including water reclamation), purification, and conservation; (2) water storage, transportation, metering, and distribution infrastructure; (3) production of household and commercial water purifier and heating products; and (4) provision of economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p> <p>The Index is weighted according to the Index Provider’s ESG proprietary ratings. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable. Any existing or potential constituent of the Index which does not meet the labor, human rights, environmental, and anti-corruption</p>

Global X Management Company (Europe) Limited

	<p>standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index, as determined by the Index Provider.</p>
<p>Global X CleanTech UCITS ETF</p>	<p>The Fund promotes investment in exchange-listed companies that are positioned to benefit from the increased adoption of technologies focused on improving the efficiency of renewable energy production and/or mitigating the adverse environmental effects of resource consumption (“CleanTech”), including, but not limited to, companies whose principal business is in developing technology relating to renewable energy, energy efficiency and storage, smart grid, lithium-ion batteries and/or fuel cells, and/or pollution prevention/amelioration (collectively, “CleanTech Companies”), as defined by Indxx LLC, (the “Index Provider”) of the Indxx Global CleanTech v2 Index (the “Index”).</p> <p>The Fund will seek to replicate the performance of the Index subject to the deduction of fees and expenses by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.</p> <p>The Index is weighted according to the Index Provider’s ESG proprietary ratings. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable. Any existing or potential constituent of the Index which does not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index, as determined by the Index Provider.</p>
<p>Global X Hydrogen UCITS ETF</p>	<p>The Fund promotes investment in companies that are positioned to benefit from further advances in the field of hydrogen technology.</p> <p>Hydrogen technology includes products and services focused on the development and implementation of hydrogen gas as a renewable fuel source.</p> <p>Specifically, the Fund will seek to replicate the performance of the Solactive Global Hydrogen v2 Index (the “Index”) that will include securities issued by “Hydrogen Companies” as defined by Solactive AG, (the “Index Provider”) as those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: 1. Hydrogen Production: Companies involved in the production, transportation, storage, and distribution of hydrogen (including renewable hydrogen) that can be used as an energy source. 2. Hydrogen Fuel Cells: Companies that develop and/or manufacture fuel cells (and the components thereof) that convert chemical energy into electricity and heat, powered by hydrogen fuel and/or reformed hydrogen-rich gas. 3. Hydrogen Technology: Companies involved in the production of hydrogen electrolyzers (which produce hydrogen gas from water), tanks and pipelines, commercial and residential infrastructure, generators, engines, and vehicles powered by hydrogen fuel cells, as well as hydrogen fueling stations. 4. Hydrogen Integration: Companies that provide engineering and consulting services for the adoption and utilization of hydrogen-based fuel and/or energy sources at the residential, commercial, and industrial levels.</p>

Global X Management Company (Europe) Limited

	<p>In addition, companies identified by the Index Provider as deriving greater than 0% but less than 50% of revenue from the business activities described above ("Diversified Hydrogen Companies"), as well as companies identified by the Index Provider as having primary business operations in the business activities described above but that do not currently generate revenues ("Pre-Revenue Hydrogen Companies"), are eligible for inclusion in the Index. In addition, Diversified Hydrogen Companies and Pre-Revenue Hydrogen Companies are subject to an individual weight cap of 2% and an aggregate weight cap of 10% at each semi-annual rebalance.</p> <p>The Fund will seek to replicate the performance of the Index subject to the deduction of fees and expenses by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs") based on the securities in the Index.</p> <p>The Index is weighted according to the Index Provider's ESG proprietary ratings. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable. Any existing or potential constituent of the Index which does not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index, as determined by the Index Provider.</p>
Global X Renewable Energy Producers UCITS ETF	<p>The Fund promotes investment in renewable sources including wind, solar, hydroelectric, geothermal, and biofuels by investing in publicly traded companies listed in either developed or emerging markets (excluding India) that produce energy from renewable sources including wind, solar, hydroelectric, geothermal, and biofuels (including publicly traded companies that are formed to own operating assets that produce defined cash flows and are focused on returning cash flows generated from renewable energy assets to shareholders ("YieldCos") (collectively, "Renewable Energy Companies"), as defined by Indxx LLC (the "Index Provider") of the the Indxx Renewable Energy Producers v2 Index (the "Index").</p> <p>The Fund will seek to replicate the performance of the Index subject to the deduction of fees and expenses by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs") based on the securities in the Index.</p> <p>The Index is weighted according to the Index Provider's ESG proprietary ratings. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable. Any existing or potential constituent of the Index which does not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index, as determined by the Index Provider.</p>

Global X Management Company (Europe) Limited

<p>Global X Solar UCITS ETF</p>	<p>The Fund promotes investment in companies that are positioned to benefit from further advances in the field of solar technology. Specifically, the Fund seeks to replicate the Solactive Solar v2 Index (the “Index”) that consists of securities issued by “Solar Companies” defined by Solactive AG, the (“Index Provider”) as those companies that derive at least 50% of their revenues from the following business activities: Solar Energy Materials: Companies involved in the production of raw materials that are primarily used in photovoltaic solar cells or concentrating solar-thermal mirrors or lenses (including silicon, cadmium telluride, copper indium gallium deselenide, titanium dioxide, and/or perovskite). Solar Energy Systems & Components: Companies involved in the development and/or manufacturing of solar energy systems (and the components thereof) that harness energy from the photovoltaic effect or from sunlight to generate electricity. For example, a company involved in the production of solar panels may be categorized as having business activities related to Solar Energy Systems & Components. Solar panels consist of an arrangement of solar photovoltaic cells mounted in a framework for installation. Solar Power Production: Companies that generate and distribute electricity from light energy. Solar Technology: Companies that develop commercial and residential infrastructure, generators, and engines powered by solar energy, as well as residential and commercial scale batteries for electricity produced from solar power, and solar-powered charging systems for electric vehicles or other electric devices. Solar Installation, Integration & Maintenance: Companies that provide engineering and/or advisory services for the installation, integration, maintenance, and/or utilization of solar power at the residential, commercial, and industrial levels.</p> <p>The Fund will seek to replicate the performance of the Index subject to the deduction of fees and expenses by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.</p> <p>The Index is weighted according to the Index Provider’s ESG proprietary ratings. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable. Any existing or potential constituent of the Index which does not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index, as determined by the Index Provider.</p>
<p>Global X Wind Energy UCITS ETF</p>	<p>The Fund promotes investment in companies that are positioned to benefit from further advances in the field of wind energy technology. The Fund will seek to replicate the performance of the Solactive Wind Energy v2 Index (the “Index”) to include securities issued by “Wind Energy Companies” as defined by Solactive AG, (the “Index Provider”) as those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: Wind Energy Systems: Companies involved in development, manufacturing, integration, and/or maintenance of turbine components and turbines that harness energy from the wind and convert it into electrical power. Wind Power Production: Companies that generate and distribute electricity from wind power. Wind Energy Technology: Companies that develop commercial and residential infrastructure and systems powered by wind energy, as well as residential and commercial scale batteries for electricity produced from wind power. Wind Power Integration & Maintenance: Companies that provide engineering and/or advisory services for the installation, maintenance, and/or utilization of wind energy at the residential, commercial, and industrial levels. In addition, companies identified by the Index Provider as having primary business operations in the business activities described above but that do not currently generate revenues (“Pre-Revenue Wind Energy Companies”), are eligible for inclusion in the Index if there are fewer than 25 eligible Wind Energy Companies. Pre-Revenue Wind Energy Companies are subject to an aggregate weight cap of 10% at each semi-annual rebalance.</p>

Global X Management Company (Europe) Limited

	<p>The Fund will seek to replicate the performance of the Index subject to the deduction of fees and expenses by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.</p> <p>The Index is weighted according to the Index Provider’s ESG proprietary ratings. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviews each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable. Any existing or potential constituent of the Index which does not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index, as determined by the Index Provider.</p>

Website section ‘Limitations to methodologies and data’

Full name of the Article 8 (sub-) fund:	
-----------------------------------------	--

Global X Management Company (Europe) Limited

<p>Global X Clean Water UCITS ETF</p>	<p>The data landscape for ESG analysis and reporting is rapidly developing and data quality and methodology currently face industry-wide challenges. Limitations on methodologies and ESG data include the lack of consistency, reliability, comparability, and quality of the data available. This is driven by issues including, but not limited to:</p> <ul style="list-style-type: none"> • Lack of common methodology across providers of ESG ratings; • Lack of standardised reporting by companies; • Different models and analytical tools for unreported data; and • Backward looking information that fails to capture “direction of travel”. <p>The Investment Manager does not verify a company as a Clean Water Company (as defined above) and is reliant on the Index Provider’s and ESG data provider Minerva’s expertise to select the companies according to the criteria as set out in the methodology of the Index and based on the sustainability indicators and exclusion screens. The Index Provider and Minerva are subject to initial and ongoing due diligence checks by the Investment Manager to verify their skill and expertise.</p> <p>The Investment Manager does not generally have the ability to independently verify data from external data providers and is therefore dependent on the integrity of external providers and the processes by which any such data is generated. In placing reliance on external data providers there are certain risks that may arise, including but not limited to errors in third party data used by the Investment Manager.</p> <p>Such errors may be undetectable and can result in holdings weightings that are inconsistent with the stated methodology of the index and/or the investment objective and/or policy of the Fund. The Funds could incur unexpected costs as a result such errors.</p> <p>These limitations are addressed by:</p> <ul style="list-style-type: none"> • Use of varied data sources; and • Reliance on internal research and analysis using third party data as complementary information. <p>These limitations do not impact on the Fund's ability to attain the environmental and/or social characteristics that it promotes.</p>
